

FORCE **ORDNANCE**

**AUSTRALIAN DESIGNED & MANUFACTURED
SMALL-ARMS SYSTEMS SOLUTIONS FOR
MILITARY, LAW ENFORCEMENT & GOVERNMENT**

**AUSTRALIAN MADE,
INTERNATIONAL REACH:
FORCE ORDNANCE DESIGNS,
MANUFACTURES AND INTEGRATES
HIGH-PRECISION, BATTLE-PROVEN
SMALL-ARMS SOLUTIONS FOR
MILITARY, LAW ENFORCEMENT
AND GOVERNMENT.**

**As part of the Lightforce
Australia Group of Companies,
FORCE ORDNANCE builds on
over 30 years of excellence
in engineering and rugged
dependability, forged on
the battlefield.**

Building on a strong reputation for working with Global Defence Departments and Law Enforcement agencies, FORCE ORDNANCE continues this tradition of high-quality innovation, manufacturing and through-life support, to ensure that those on the front line of the nation's Defence, are always armed for success.

LEADING THE WAY IN HIGH-PRECISION SMALL-ARMS SYSTEMS FOR THE AUSTRALIAN DEFENCE FORCE AND LAW ENFORCEMENT

Defence technology never stands still, and neither do we. FORCE ORDNANCE is at the forefront of advances in Military engineering, manufacturing and composite material development.

Our global focus on research and innovation delivers us cutting-edge technology, so that personnel in the field can be confident that the equipment in their hands will withstand the challenges of modern war-fighting – wherever they are, and whatever the conditions.

Designed, Engineered and Manufactured in South Australia

Through a joint venture, FORCE ORDNANCE will partner with world leading Military weapons manufacturer-LEWIS MACHINE & TOOL to design, manufacture and develop Small-Arms Systems in South Australia.

Their pedigree is one of dependability, durability and a battle-proven effectiveness in-service with key NATO and Commonwealth allies.

The rigorously controlled, state-of-the-art manufacturing base not only ensures swift service and response but, importantly, serves to reinforce Australia's sovereign capability and national security.

Lightforce Australia Group of Companies' proven capabilities and experience, through NIGHTFORCE Optics – a global provider of optic solutions for Defence forces – have guided our commitment towards delivering on five essential criteria:

- Reliability in the field and in training
- Operational availability
- Functional design and balance
- Flexibility as a modular weapon system
- Inter-operability across existing and planned ammunition types

“Our success in Defence and with law enforcement agencies across the globe, has been achieved through our innovative design, stringent specifications, quality standards, and our product-support program.”

- Monika Leniger-Sherratt
CEO

Australian Innovation

Our local innovation hub is a vital link in building domestic engineering skills, and places our products in a strategically important global supply chain.

Local Manufacturing

Focused on all product portfolios, our systems of manufacturing are continually improved and developed to increase wealth in the state and provide sustainable distribution from origin to service.

Testing and Evaluation

Force Ordnance's testing and evaluation processes are rigorous and exhaustive. All products undergo rigorous environmental testing in line with MIL-STD or NATO STANAG requirements, this ensures they are fit for purpose and reliable; First time. Every time.

Responsive Training and Support

Our nation-wide footprint provides all the vital aspects of Integrated Logistic Support.

TRUSTED BY MILITARY AND LAW ENFORCEMENT SERVICES ACROSS THE GLOBE

The Lightforce Australia Group of Companies' reputation for design innovation, meticulous craftsmanship and uncompromising reliability has earned us supply contracts to some of the world's leading Defence and civil organisations, including:

- Australian Federal and state police and emergency services
- Australian Department of Defence
- New Zealand Department of Defence
- US Department of Defence
- Canadian public works and government services
- Customers throughout South Africa and UK

Australian Companies

- BAE Systems
- Autobarn
- TJM
- Opposite Lock
- Mitsubishi
- TAUV
- Axiom Precision Manufacturing and Plastic Injection Moulds

International Partners

- EuroOptics
- Optics Planet
- Cabela's
- Lewis Machine and Tool Company
- CADEX Defense
- SilencerCo

Core Capabilities

- State-of-the-art design and innovation
- Precision engineering and manufacturing
- Rigorous testing and evaluation in demanding environments
- Comprehensive training
- South Australian production hub
- Responsive through-life support
- Strategic partnerships with international design and manufacturing specialists
- IP development and ownership
- Strong relationships with global Defence departments
- Complete operation and maintenance instructions
- Specific repair and spare-parts manuals, gauges and armorers' tools

Quality Systems and Achievements

Maintaining the highest levels of quality, compliance and precision, Lightforce Australia Group of Companies has achieved Quality Management System ISO 9001:2015 (Design and Manufacturing)
